

AgModels

About AgModels Foundation

The AgModels Foundation, Inc. was established in 2016 as a 501 (c) (5) not-for-profit organization whose purpose is to provide a secure, dynamic data resource for agricultural enterprises to facilitate real-time integrated production based information to those engaged in the allied agricultural industries for research purposes and in the training of current and future generations.

Data stored with the Foundation remains the exclusive property of the producer member where the information originated. Aggregated data is provided by the Foundation to its institutional members with anonymity for benchmarking and research purposes. The Foundation provides reliable and secure connectivity to the data, safeguarding privacy and ensuring availability of producers' data.

Mission:

AgModels Foundation, Inc. is a 501(c)(5) not-for-profit organization whose mission is to address, educate and provide information to those engaged in the agricultural industry. The Foundation facilitates the development of best practices to enable and improve the acquisition of farm data to deliver more efficient, cost-effective and profitable operation of farms. The Foundation transforms raw data into actionable business intelligence to support the sustainability of a growing world population.

Foundation Membership & Rights

There are three levels of Foundation membership:

Level 1. Producer Membership
